

Maritime Project References

Shipbuilding

Project Energy-saving air lubricated ships (Damen Shipyards)
Development of Integrated Co-operation course (Merwede Shipyard)
Feasibility study on high reflective coatings (Nederlof Shipbuilding)
Project development landing craft (Damen Shipyards)
Project development for license building of 50 US Coast Guard cutters (Bollinger Shipyards)
Sales engineering Enlarged Coast Guard Cutters (Dutch Coast Guard)
Innovation subsidy project for Research Development Innovation (Icon Yachts)

Transport & Logistics

Communication plan on reporting procedures in shipping (Ministry of Transport)
Accident investigation and reporting (Fast Ferries/Connexion)
Research on illicit trafficking of radioactive and hazardous materials (EC DG Energy)

ICT & Telecommunications

Development of Integrated Design in the maritime industries IO-Open Mind (VNSI)
Application of standardization in the maritime supply chain - Euromind (EC DG Industry)
Feasibility study for VTS in Riga and Liepaja (Maritime Administration of Latvia)
Co-ordination of tender procedure VTS in Riga and Liepaja (Maritime Administration of Latvia)
Feasibility study VTS in Manila (Philippine Ports Authority)
Co-ordination of tender procedure VTS Port of Rotterdam (GTI / Norcontrol)
EDI inventory in the Baltic Sea (EC DG Industry)
Development of CRM software for associations (BMT)
Development of a maritime internet portal (SeaQuipment)

Defence

Project coordinator new building Walrus class submarine (Royal Netherlands Navy)
Project coordinator midlife conversion Zwaardvis class submarine (Royal Netherlands Navy)

Maritime Education

Knowledge management inventory for the maritime and offshore industries (TU Delft)
Development of Methodical Innovation course in Bsc Naval Architecture (INHOLLAND)
Development of vocational education program Maritime Technology (ROC ASA)

Associations

Demographic change & Skills Requirements in the European Shipbuilding Industry (CESA)
Supply chain integration in the maritime industries - KIM2 (VNSI)
Development of RDI subsidy scheme for the shipbuilding industry (RDI scheme) (EZ)
Research for a new fiscal and technical scheme for mega yachts (NML)
Development of a technical requirements program for a multi-purpose fishing vessel (NML)
Development of a technical requirements program for a multi-purpose shellfish vessel (NML)
Dutch LeaderSHIP 2015 A strategic roadmap for the shipbuilding industry (VNSI)
Dutch Manufacturing 2010: A strategic roadmap for the manufacturing industries (ING bank)
